Until next time....

[Bringing Back Broadway](#) is an ambitious 10-year plan led by [Councilmember José Huizar](#) to revitalize the Historic Broadway corridor in downtown L.A. The historic Broadway corridor, part of an important National Register Historic District, is located in the center of downtown Los Angeles and in the heart of the Historic Core.

Goals of Bringing Back Broadway are to provide economic development and business assistance; re-activate Broadway's historic vacant theaters, as well as more than one million square feet of vacant commercial space and increase parking and transit options, including bringing the beloved streetcar back to downtown Los Angeles.

Under Councilmember Huizar's Bringing Back Broadway initiative, the area has already experienced a surge in new retail and restaurants, and is becoming a focal point for creative office and boutique hotel development with city policies aimed at creating flexibility for the reactivation of upper floor spaces.
